ABSTRAK

Kelengkapan data dokumen rekam medis di RSUD Pantura M.A Sentot Patrol ditemukan berkas rekam medis yang belum lengkap 100%. Tujuan penelitian ini untuk meninjau aspek kuantitatif kelengkapan data identifikasi, laporan penting, autentikasi dan pencatatan dokumen rekam medis di RSUD Pantura M.A Sentot Patrol.

Jenis penelitian ini deskriptif kuantitatif. Sampel yang digunakan yaitu sebanyak 145 dokumen rekam medis. Instrumen yang digunakan adalah lembar observasi atau lembar checklist. Jenis data menggunakan data primer dan sekunder.

Hasil penelitian kelengkapan dokumen rekam medis di RSUD Pantura M.A Sentot Patrol dari sampel 145 dokumen yang sudah lengkap pengisiannya yaitu sebanyak 8 dokumen (6%) dan ketidaklengkapan pengisiannya sebanyak 137 dokumen (94%).

Kelengkapan dokumen rekam medis di RSUD Pantura M.A Sentot Patrol masih belum lengkap 100%. Diharapkan manajemen rumah sakit untuk mengadakan sosialisasi baik kepada Profesional Pemberi Asuhan (PPA) maupun kepada dokter supaya lebih memperhatikan kelengkapan data dokumen rekam medis sehingga dapat meningkatkan mutu pelayanan rekam medis.

***QUANTITATIVE REVIEW OF THE COMPLETENESS OF MEDICAL RECORDS
OF OUTPATIENT POLYSURGERY PATIENTS AT RSUD PANTURA M.A
SENTOT PATROL***

xvii + 40 pages + 6 tables + 1 chart + 10 attachments

ABSTRACT

The completeness of medical record document data at Pantura M.A Sentot Patrol Hospital was found to be 100% incomplete. The purpose of this study is to review the quantitative aspects of the completeness of identification data, important reports, authentication and recording of medical record documents at RSUD Pantura M.A Sentot Patrol.

This type of research is descriptive and quantitative. The sample used was 145 medical record documents. The instrument used is an observation sheet or checklist sheet. The data types use primary and secondary data.

The results of the research on the completeness of medical record documents at RSUD Panura M.A Sentot Patrol from a sample of 145 documents that have been completed are 8 documents (6%) and 137 documents (94%) are incomplete.

The completeness of medical record documents at Pantura M.A Sentot Patrol Regional General Hospital is still not 100% complete. Advice to hospital management to hold socialization both to Care Provider Professionals (PPA) and to doctors to pay more attention to the completeness of medical record document data so that it can improve the quality of medical record services.
