ABSTRAK

Saat ini, banyak pelayanan kesehatan yang telah beralih ke Rekam Medis Elektronik (RME) untuk mempermudah proses pelayanan. RME sudah mulai dilaksanakan di beberapa pelayanan kesehatan. Menjelang akhir tahun 2023 pemerintah pusat mewajibkan fasilitas kesehatan diharapkan untuk melaksanakan RME. Tujuan pada penelitian ini adalah untuk mengetahui implementasi kesiapan petugas dalam menghadapi rekam medis elektronik di Puskesmas Kesambi Kota Cirebon.

Penelitian ini menggunakan metode deskriptif dengan sampel 21 responden dan instrumen penelitian menggunakan metode DOQ-IT, pengumpulan data menggunakan kuesioner atau lembar angket.

Diperoleh informasi bahwa pada aspek sumber daya manusia dengan hasil rata rata nilai (4,00), budaya kerja organisasi hasil rata rata nilai (4,09), tata kelola kepemimpinan rata rata nilai (3,80), dan infrastruktur TI dengan rata rata nilai (4,28). Secara keseluruhan, rata-rata nilai dari keempat indikator sebesar (4,00). Hal ini menunjukkan bahwa puskesmas kesambi sangat siap menerapkan RME.

Penerapan RME perlu diperkuat melalui suatu kebijakan-kebijakan dari pimpinan untuk mempersiapkan penggunaan RME dan Pimpinan segera membuat SOP untuk mengajak karyawannya dalam penerapan RME di puskesmas.

ABSTRACT

Currently, many health services have switched to Electronic Medical Records (RME) to simplify the service process. RME has started to be implemented in some health services. Towards the end of 2023 the central government requires health facilities to be expected to implement RME. The purpose of this study was to determine the implementation of officer readiness in facing electronic medical records at the Kesambi Health Center, Cirebon City.

This study uses a descriptive method with a sample of 21 respondents and research instruments using the DOQ-IT method, data collection using a questionnaire or questionnaire sheet.

information was obtained that in the aspect of human resources with an average score of (4.00), organizational work culture with an average score of (4.09), leadership governance with an average score of (3.80), and IT infrastructure with an average score of value (4.28). Overall, the average value of the four indicators was (4.00). This showed that Kesambi Public Health Center is very ready to implement RME.

The implementation of RME needs to be strengthened through policies from the leadership to prepare for the use of RME and the leadership immediately creates SOPs to invite employees to implement RME in public community health centers.
