ABSTRAK

Permenkes RI mewajibkan seluruh fasyankes menerapkan RME melalui PMK No.24 Tahun 2022. UPT Puskesmas Sunyaragi Kota Cirebon memulai penerapan RME per Juli 2023, namun dalam peralihannya belum pernah dilakukan penilaian kesiapan. Penilaian kesiapan perlu dilakukan sebelum penerapan RME. Tujuan penelitian ini adalah untuk menganalisis kesiapan penerapan RME menggunakan metode *CAFP EHR Readiness Assessment Tool* di UPT Puskesmas Sunyaragi Kota Cirebon.

Jenis penelitian ini adalah deskriptif dengan pendekatan kuantitatif. Instrumen yang digunakan dalam penelitian ini adalah lembar kuesioner. Subjek pada penelitian ini adalah Kepala UPT Puskesmas Sunyaragi Kota Cirebon, Kepala TU, dokter, perawat, bidan, dan perekam medis.

Berdasarkan hasil penelitian yang di dapatkan bahwa kesiapan penerapan RME dengan metode *CAFP EHR Readiness Assessment Tool* di UPT Puskesmas Sunyaragi Kota Cirebon, pada aspek kapasitas manajemen mendapatkan skor 16,1 berada pada *range I* (sangat siap). Aspek kapasitas keuangan dan anggaran mendapatkan skor 14,3 berada pada *range I* (sangat siap). Aspek kapasitas operasional mendapatkan skor 13,3 berada pada *range II* (cukup siap). Aspek kapasitas teknologi mendapatkan skor 30,6 berada pada *range II* (cukup siap). Aspek keselarasan organisasi mendapatkan skor 33,1 berada pada *range I* (sangat siap). Secara keseluruhan UPT Puskesmas Sunyaragi Kota Cirebon mendapatkan skor 107,4 dari maksimal skor 140 dan masuk dalam kategori sangat siap untuk penerapan RME berdasarkan *CAFP EHR Readiness Assessment Tool*. Diharapkan UPT Puskesmas Sunyaragi Kota Cirebon melakukan penyusunan kebijakan dan rencana strategis penerapan RME yang efektif dan efisien sebagai pedoman untuk melaksanakan penerapan agar lebih optimal.

ABSTRACT

The Republic of Indonesia Minister of Health Regulation requires all health facilities to implement RME through PMK No. 24 of 2022. UPT Puskesmas Sunyaragi Cirebon City started implementing RME as of July 2023, but in the transition there has never been a readiness assessment. A readiness assessment needs to be conducted prior to implementing RME. The aim of this research is to analyze the readiness to implement RME using the CAFP EHR Readiness Assessment Tool method at the UPT Puskesmas Sunyaragi, Cirebon City

This type of research is descriptive with a quantitative approach. The instrument used in this research was a questionnaire sheet. The subjects in this study were the Head of UPT Sunyaragi Community Health Center, Cirebon City, Head of TU, doctors, nurses, midwives and medical recorders.

Based on the research results, it was found that the readiness to implement RME using the CAFP EHR Readiness Assessment Tool method at the UPT Sunyaragi Community Health Center, Cirebon City, in the aspect of management capacity, received a score of 16.1, which was in the range/ (very ready). The financial and budget capacity aspect got a score of 14.3 in Padaranga (very ready). The operational capacity aspect got a score of 13.3 in Padaranga II (fairly ready). The technological capacity aspect got a score of 30.6 in range II (fairly ready). The organ harmony aspect received a score of 33.1 in range I (very ready). Overall, the Sunyaragi City Health Center UPT, Cirebon City, received a score of 107.4 and a maximum score of 140 and was included in the very ready category for implementing RME based on the CLFP EHR Readiness Assessment Tool. It is hoped that the Sunyaragi City Health Center UPT Cirebon will prepare policies and strategic plans for effective and efficient implementation of RME as a guide for implementing the implementation. to be more optimal.
